*Goal now includes mail processing and delivery time. A recent survey of mail delivery time for these services yielded the fact that the *average* amount of time required for one-way delivery is seven calendar days. Therefore the prior goal was increased by 14 days to reflect average time from mailing by requestors to receipt of copies.

IMPROVEMENTS TO SERVICES

- *Data Base Search System*—A contract has been awarded to Pergamon International Information Corp. (PIIC) for the provision of a data base search system in the Patent Public Search Room. Access to patent-related and non-patent information will be available to visitors in the PTO Search Room via on-line data base searches performed by PIIC. Users will be charged a fee based on the data base accessed and the connect time required to complete the search. The initial system will include the following data bases: PATSEARCH, PATCLASS, PATLAW, INPI-1, INPI-2, INPADOC, BIOSIS, CA SEARCH, COMPENDEX, NTIS, SCISEARCH, CHEMNAME, CHEMSEARCH, METADEX, RAPRA, PIRA, GEOMECHANICS, ABSTRACTS, WORLD TEXTILES, CHEMICAL ENGINEERING ABSTRACTS, and LEAD ZINC CADMIUM AND MASS SPECTROMETRY BULLETIN. Additional data bases may be made available through the search system as demand warrants.
- *Timeliness in Providing Certified Copies*—Local certification service has been extended to the certification of copies of pending and published trademark files. This service is similar to that being offered for pending, abandoned, and patented files. Individuals desiring to use the local trademark certification service are responsible for reproducing a copy of the pending or published file and placing it in the correct order. The file and the reproduced copy are to be left in the Trademark Search Library, with fee payment of $0.10 per page certified, plus $3.50 per certificate. These certification orders will be delivered to the Patent Public Search Room at 10:00 a.m. and 4:00 p.m. daily for processing. In general, the certified copy will be ready for pick-up in the Patent Public Search Room within 24 hours after received there.
- *Timeliness in Providing Patented and Trademark Files*—Based on samples taken during Sept. and Oct., the average turnaround time for providing patented and trademark files was less than 8 hours for 71% of all the requests. Almost all of the remaining requests involved files located at the Federal Records Center in Suitland, Md., and took an average of 4.5 days to process.
- *Search Room Working Conditions*—In late Oct., con-

struction was completed to expand the Trademark Search Library. Floor space in this area was increased by 450 square feet, providing space for additional tables and chairs for use by the public and for a more logical and less crowded arrangement of search files.

- *Search Room User Passes*—New Public Search Room User passes are now being issued. Users are asked to complete an application form and are given a simplified and revised set of regulations for the use of PTO facilities. There is no charge for first issuance of a new pass. Duplicate or replacement User Passes will be available for $5.00. Temporary passes will be available at no charge.
- *Patent and Trademark Copy Orders*—The contractor for the patent and trademark copy order fulfillment function has implemented and automated control system. The previous system was based on processing the order coupon and entailed a number of manual sorting and collating activities. It was highly labor intensive and error prone. The present system utilizes a small computer to eliminate many of these steps and has proven to be both cost effective and less liable to error. In place of the coupon, a label carrying significant ordering information is generated and placed on the patent copy. This label may be peeled from the copy without damage to the patent copy. The coupon number is now printed on the label, which should resolve some of the earlier problems encountered by requestors who rely heavily upon the availability of the coupon number for their own internal controls.

THERESA A. BRELSFORD,
Acting Assistant Commissioner for Administration.
